You're so snowed under that you can't see the opportunities to grow your business. You just need some headspace to think clearly.

You used to say, "I could not afford to have support in administration and operations." Now you know, you can't afford not to have it.

You've been too busy working in your business to work on your business.

Your systems and procedures are incomplete and out of date. They're old and inefficient.

You need a sounding board with whom you can push different ideas around.

OUR PROVEN PROCESS

8 weeks

We use the EOS (Entrepreneurial Operating System) framework to help you get a return on your investment as quickly as possible. These tools provide a solid foundation for your business growth.

WEEK 1: VISION TRACTION ORGANISER (VTO)

Your VTO captures your business plan in a concise, complete picture of where your vision lies. This helps make sure your team are all on the same page, heading in the same direction.

WEEK 2: THE ACCOUNTABILITY CHART

The accountability chart can help clarify the relationship and roles between you, your VBM and your team. The act of working through the accountability chart shifts your mindset from where your business is now, to where it needs to be positioned for the future to achieve your vision.

WEEK 3: QUARTERLY ROCKS

A big part of your VBM'S role is to help your business plan and achieve its quarterly 90 day rocks (goals). These help both you and your VBM focus and be accountable so those rocks get done. Here's a helpful video showing the difference between to-dos, rocks and issues. These create the traction for your business to meet goals locked into your VTO.

WEEK 4: YOUR COMPANY SCORECARD

These measurables help you know whether you are 'on track' to achieving your goals. The company scorecard measures key activities or results that must be achieved on a weekly basis in order to have successful weeks (and thus successful months, quarters, and years).

WEEK 5: THE ISSUES SOLVING TRACK (IDS)

An issue can be a weakness, challenge or opportunity. The Issues Solving Track helps you get to the real cause of the problem, discuss and then solve (which often results in to-do's or cascading messages).

WEEK 6: WEEKLY LEVEL 10 MEETING

This agenda is a game changer. Using Ninety (and we'll set you up with a 30 day trial), your VBM will run through the agenda live, with a timer to keep you on track. L10 meetings get results (we hold our own weekly leadership meeting as L10s - so we can promise you results!).

WEEK 7: DELEGATE AND ELEVATE

One reason why you came to us may be that you're not achieving your weekly to-dos, or not on track with your quarterly rocks. The delegate and elevate tool (and we include a tool called the Assistance Track) helps with clarity around the tasks you are currently doing and shouldn't be, and how to shift those. Part of your VBM's role is to manage this process, documenting it then finding the right person to delegate it to.

WEEK 8: THE 3-STEP PROCESS DOCUMENTER

Having used and implemented the tools above, you should now have a VBM fully onboarded and up to speed with you, your team and your business. The final tool in this framework is the 3-step process documenter. A tool to document your processes and elevate your operations in order to start the next step in your journey to build a sustainable, profitable business.

OUR CORE

values

HUMBLY CONFIDENT

We have an ability to appear confident without arrogance, to be self-effacing while still projecting strength and competence. We call this special quality 'humble confidence'. It's the sweet spot that comes from knowing and being able to focus in our own zones of genius.

EXCEEDING EXPECTATIONS

We never settle because we believe there's always an opportunity to do better and improve how our clients run and grow their business.

We go the extra mile to add value because 'it will do' isn't in our vocabulary.

POSITIVELY DETERMINED

Armed with a can-do attitude we look for solutions, not problems. If it can't be done, we'll find a way and we'll do it knowing we're making a difference for who we work with, and who we work for.

SOCIALLY AUTHENTIC

Our whole is greater than the sum of our parts. We're human, not perfect. Our success is driven by our ability to ride through highs and lows with a smile. Team is valued over individuals and we're here for each other as our success is driven by our ability to create relationships.

ETHICALLY HONEST

We work with transparency and integrity. What's right isn't always easy, but we do what's right. Building trust requires confidence, patience, respect and effort so we do what we say we'll do and if we can't do it, we'll say. We recognise strength in asking for help. In asking, we all get over the finish line together.

TRAIL BLAZERS

We have a culture of innovation and continuous improvement, there is no status quo. By constantly seeking personal and professional growth we keep our passion for what we do, we stay relevant and blaze a trail for those who follow us.

A FULL SERVICE

agency

WHEN YOU PARTNER WITH US YOU PARTNER WITH A WRAP AROUND SERVICE

That means you have full cover, no matter what happens.

Because we document all your procedures, and share those with you, your support isn't dependent on one person.

And if you ever do take the plunge and get someone in-house, we can help you with the handover. Easy!

Agency support also means we're a one-stop-shop. You're busy, and we know you don't want to be dealing with a number of different companies or contractors to get what you need done, done. So we make sure you don't have to.

Our virtual assistants, virtual experts and virtual business managers are seasoned strategists, project managers and... experts! More than being your assistants, it is our mission to partner with you in order to help grow your business while giving you the time you need to add value where your own strengths lie.
